We value our passengers and will treat you with courtesy and respect. We are committed to maintaining our ships to a high standard of cleanliness. Regular inspections are carried out to ensure these standards are maintained.

DISABLED PASSENGERS AND PASSENGERS WITH REDUCED MOBILITY

If you are a disabled passenger or passenger with reduced mobility you will be treated with the same degree of respect and courtesy as all other passengers. We need you to notify us at least 48 hours prior to travel should you require assistance. We will provide you with any necessary assistance at the time of embarkation, during your

journey and disembarkation in a safe and comfortable manner. Once we are in possession of all the details of your specific needs and assistance you require, we will assess if we are able to carry you safely throughout your journey. If you need to bring any special medical equipment on board it is important that you inform us of this at the time of booking so that we can assess whether or not the equipment can be carried safely, including whether it is compatible with the ships electrical system. We will require you to give as much detail as you can about your specific individual needs and requirements in order that we can make an informed decision complying with safety regulations. We will take into account any national laws, the design of the ship and port infrastructure as to whether we can carry you safely.

Upon acceptance of your booking we will write to confirm that we are able to cater for your individual needs.

In the unfortunate event that we cannot accept a booking for a disabled person or person with reduced mobility, we will immediately inform the person of our decision and will also confirm in writing within 5 working days. If there are any alternative options available at the time we will provide these to you as well.

Should we conclude after assessing your particular needs that we require you to be accompanied by an individual who can assist you during the course of your journey, then that accompanying person will not be charged. We will also ensure as far as reasonably possible that you are both seated together during your crossing.

If your booking was accepted by us but at the time of embarkation it transpires that unfortunately we will not be able to carry you in a safe and operationally feasible manner, we will offer you full reimbursement of your ticket and arrange your repatriation.
