

Sailings that support you and your customers, all year round

Sail to the Isle of Man throughout 2026/27 with our updated Larne and Dublin services.

Our updated 2026/27 schedule provides reliable, year-round access between Ireland and the Isle of Man. From April 2026, we'll sail from Larne three times per week across all seasons, giving travel partners a consistent, dependable route to the Isle of Man from Northern Ireland. During high season, we also operate twice-weekly sailings from Dublin, offering additional choice for leisure, touring, and package holiday customers.

These routes have been designed to support travel agents, coach operators, and group organisers with clear timetables, strong connectivity, and capacity suited to growing demand.
